PROFILE

Computer Science and Engineering graduate with experience in backend development using Python (Django), Laravel, and RESTful APIs. Skilled in building scalable web applications, database optimization, and secure system architecture. Passionate about developing efficient software solutions and solving real-world technical problems.

PROFESSIONAL EXPERIENCE

Backend Developer

Nov 2025 – Present

Raktch Technology & Software, Dhaka

- Led the development and deployment of scalable backend services using Python and Django.
- Developed RESTful APIs using Django Rest Framework to support frontend application requirements.
- Implemented caching strategies to optimize API response times and reduce server load.
- Optimized database queries in MySQL to reduce latency and improve data retrieval efficiency.

Intern – Web Developer

Apr 2023 – Sep 2023

Unico IT LTD, Dhaka

- Developed multiple web applications using Laravel and collaborated with the team to deliver scalable solutions.
- Collaborated with frontend developers to design responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Developed backend components using Laravel to enhance website functionality and performance.

PROJECTS

PetLouma Ecommerce Site

[GitHub](#)

- Developed a full-stack e-commerce web application using Django with a focus on clean and scalable backend design.
- Implemented key features including product management, shopping cart, and order processing.
- Designed user authentication and an admin dashboard to manage products, users, and orders efficiently.

Learn Flow

[GitHub](#)

- Built a web-based learning platform using Django with course and content management features.
- Implemented user roles and structured learning modules for better content organization.
- Developed RESTful APIs using Django REST Framework to handle backend operations efficiently.

RealTime Chat

[GitHub](#)

- Developed a real-time chat application using Django Channels and React for seamless communication.
- Implemented WebSocket-based messaging to enable instant, real-time interactions.
- Designed chat rooms, message handling, and live updates for an interactive user experience.

TECHNICAL SKILLS

- **Languages:** Python, PHP
- **Frameworks:** Django, Django Rest Framework, Laravel
- **API Development:** REST API, API Integration, JWT Authentication
- **Databases:** MySQL, SQLite, PostgreSQL (basic)
- **Libraries:** Pandas (basic data handling)
- **Cloud:** AWS (basic knowledge – EC2, S3)
- **Testing:** Pytest (basic familiarity)
- **Tools & DevOps:** Git, Postman
- **Web Technologies:** Html, CSS, ReactJS (basic)

THESIS

Blockchain Innovation in Healthcare

EDUCATION

American International University – Bangladesh (AIUB)

Session 2019–23

B.Sc. in Computer Science and Engineering CGPA: 3.43 / 4.00
